**MR.SHOWERDOOR®**

## Luxus® Classic Enclosure

Luxus® Classic Shower Enclosures bring back the unsurpassed quality construction of the 1940's, 50's and 60's... the heyday of framed shower enclosures. These doors are not mere lookalikes; they are built to last, with a solid sound and feel that you have to see to believe. Luxus® Classic takes the best that history has to offer and actually improves upon it.

### 1. THICK TEMPERED GLASS

Whenever possible, we use the heavy 1/4" glass that made the original doors so solid and wobble-free. Most modern doors use only 1/8" or 3/16" glass.

### 2. WIDE GLASS MOLDING

1-1/4" wide moldings are nearly 1/8" thick and are fastened together directly at all four corners with heavy screws. With this kind of superior support system and extra heavy materials, you can rest assured that your door will not become loose or sag over time.

### 3. SOLID OPERATION

With 12 lb. magnet closures, these fully framed brass doors feature the solid feel and determination that is reminisent e of a classic luxury automotive door.

### 4. SUPER SIZED HINGES

Our specially tooled 5/16" piano hinges run the full height of the door and are designed to last for decades.

### 5. HIGHEST QUALITY WATERPROOFING SYSTEM

Screw fastened for long-term durability and waterproofed using full gaskets — no flimsy peel and stick or wandering rubber seals.

### SPECIFICATIONS

To ensure the utmost in safety, all tempered safety glass is compliant with all ANSI and consumer product safety commission specifications, as well as the even more stringent SGCC specifications.

### OPTIONS*

Available in any Plated Finish. We can even match a sample you provide. Oil rubbed bronze, antique or polished brass finishes are all treated with a durable powder coat clear sealer.

We have channels and hardware options to meet all styles and price points.
