

MR.SHOWERDOOR®

Luxus® Pivot Hinge Shower Door Enclosures

Pivot Door Enclosures are the perfect solution for very large doors. Doors exceptionally tall, wide or both can benefit from better support and security of a pivot hinge, both top and bottom. For jumbo doors extra heavy duty hinges are available, including hydrollically adjustable versions. Also beneficial for steam enclosures where minimal hinges are desirable for better steam seal.

1. TUBULAR PULL HANDLE

Standard 6" through-glass pull handles. A variety of optional styles are available to suit any décor.

2. LEAK PROOF DOORS

Available in easy to replace plastic design, permanent aluminum, or plated over brass with tiny replaceable "T" gasket below. Shown with optional curb dam for additional leak prevention.

3. TIGHT PRESSURE SEAL SYSTEM

Hinges press door against hidden door gasketing, creating a virtually leak-proof seal.

4. DOOR SAFETY

Doors are notched into hinges. Hinges are an integral part of the door for added security, strength and safety.

SPECIFICATIONS

To ensure the utmost in safety, all tempered safety glass is compliant with all ANSI and consumer product safety commission specifications, as well as the even more stringent SGCC specifications.

All exposed glass edges are polished.

OPTIONS*

Clear glass is available in 3/8" or 1/2" thickness. Privacy and decorative glass options are also available. Can upgrade to Starphire™ ultra-clear glass and/or VistaShield® low-maintenance coating.

We have hardware options to meet all styles and price points.
