

MR.SHOWERDOOR®

Vanquet® 90° Frameless Sliding Enclosure

Vanquet® Frameless Sliding Shower Enclosures for Tubs and Stalls are revolutionary in the shower enclosure market. They are the first sliding enclosure that features 1/2" tempered glass with no top framing and a minimalist bottom roller system.

1. MINIMALIST BARREL KNOB

A standard barrel knob is all that's needed to open this easy to slide unit. Other knob, handle, and towel bar styles are available to suit any taste.*

2. TOP GUIDE

The masterfully-designed guide fastenes through the glass. Door slides easily and safely with the glass supported by the rock-solid stability of the 1/2" thick stationary glass panel.

3. AIRGRAFT-QUALITY ROLLER SYSTEM

Internal roller system glides 1/2" thick heavy glass with ease along an easy-to-clean, low-profile, non-grooved lower track. The stationary panel rests in a low profile channel.

4. STURDY CLAMPS

Stationary panel is secured to the wall with 90° clamps. Glass is custom ordered to ensure a precise fit even if the walls are not plumb.

5. THICK TEMPERED GLASS

All Vanquet® enclosures feature 1/2" thick clear tempered glass.

6. WATERTIGHT DESIGN

Ensures that spray will be contained within the enclosure.

7. REVERSIBLE LAYOUT

Door can close to corner or reversed so that a stationary panel meets a 90° corner with two clamps. This places the door on the right, closing to the wall. Door is waterproof sealed to the end panel or the wall.

8. PLATED TRACKS

All tracks and base metal are plated over brass - unlike our competition.

9. ANTI-JUMP DEVICES

All products contain advanced anti-jump safety devices so doors can't derail.

SPECIFICATIONS

To ensure the utmost in safety, all tempered safety glass is compliant with all ANSI and consumer product safety commission specifications, as well as the even more stringent SGCC specifications.

All exposed glass edges are polished.

OPTIONS*

Clear glass is available in 1/2" thickness. Privacy and decorative glass options are also available. Can upgrade to Starphire™ ultra-clear glass and/or VistaShield® low-maintenance coating.

Wheels, guides, clamps, and knobs are all available in polished chrome, nickel, brass and oil rubbed bronze finishes. Also available in powder coat, painted in any color.
