

MR.SHOWERDOOR®

## Volante® V2 Frameless Sliding Enclosure

The latest thin-rail European design. Volante® V2 enclosures for tubs and stalls incorporate the finest materials and most creative design elements on the market today. Both glass panels slide on minimalist runner bars. Each unit incorporates “built to order” glass that precisely follows the walls and bases for a perfect fit and seal not possible in lower quality enclosures.

### 1. SAFETY HEADERS

Volante® headers include a stop block with a soft rubber bumper that locks in place so that the slider glass stops safely when fully open — and provides a tight seal to the wall when closed.

### 2. PREMIUM BARS AND WHEELS

Stainless steel bars and wheels with a brilliant, rich finish and solid construction allows these components to be 50% sleeker than the big box aluminum-made brands.

### 3. INGENUOUS PULL RING

The standard Volante® pull design allows the door to be operated from within or outside the enclosure. If you prefer, a wide variety of knobs, handles and towel bars are available to suit any décor.\*

### 4. PRECISE SLIDER GUIDES

Bottom door guides are precision fitted to the base plate and are custom fit to your tile base or tub rim. A plated over brass splash guard rail covers the entire span in order to prevent leaks and splash common in lesser brand units that use plastic components.

**5. HIGH-QUALITY STAINLESS FRAMING** Stainless steel shines so brilliant you will think it is plated. Able to match chrome or nickel in both polished or brushed finishes.

### 6. ANTI-JUMP DEVICES

All products contain advanced anti-jump safety devices so doors can't derail.

## SPECIFICATIONS

To ensure the utmost in safety, all tempered safety glass is compliant with all ANSI and consumer product safety commission specifications, as well as the even more stringent SGCC specifications.

All exposed glass edges are polished.

## OPTIONS\*

Clear glass is available in 3/8" thickness. Privacy and decorative glass options are also available. Can upgrade to Starphire™ ultra-clear glass and/or VistaShield® low-maintenance coating.

We have hardware options to meet all styles and price points.
