

MR.SHOWERDOOR®

## Slimstyle-90 Sliding Tub Enclosure with 90° Return Panel

Slimstyles® Sliding Tub Enclosures are widely recognized as the finest product of their kind. Their remarkable sturdy, low-profile design results in a beautiful, clean and uncluttered look.

### 1. PATENTED, LOW-PROFILE HEADER

Header is the slimmest on the market but built with structural aluminum for support and heft. Curvature is highly reflective to maximize brilliance.

### 2. RATTLE-FREE CLOSURE

Wall rail bumpers grip the glass to provide a rattle-free closure. Delrin bumpers are easy to clean and mildew resistant.

### 3. ANTI-JUMP DEVICES

All products contain advanced anti-jump safety devices so doors can't derail.

### 4. UNBREAKABLE GUIDE CLIP

Clip is made of Delrin, an unbreakable, self-lubricating plastic. Clip is black to minimize any possible future discoloration. Double fastened with high-quality 18/8 stainless steel screws.

### 5. EXTRA WIDE CAULK CHANNELS

Bottom track has double caulk troughs to ensure there are no leaks. Exaggerated bottom rail pitch improves drainage.

### 6. QUIET, SECURE SLIDING ACTION

Premium quality heavy duty sealed replaceable ball bearing wheels with round nylon tires run in a unique "V" groove for quality feel and quiet sliding action. Added runner depth prevents derailing.

### 7. CONCEALED HANGERS

Hangers are within header skirt. Top hanger runs the full length of the glass unlike other enclosures which typically are an insufficient 3" in length.

### 8. TOWEL BAR

Standard towel bar features nylon safety bushings for through-glass fasteners.

*Slimstyles® patent design boasts a profile more than 1/3 slimmer than any other product on the market.*
